

Nova Skylight

Roll-up system adapted to all types of attic windows.

Maximum width 1200 mm

Maximum height 1400 mm

Color ☐ White ☒ Anodized aluminum

Operating systems Manual

Installation In opening

Options Extendable wand

Windows with slopes of up to 60°

Totally adaptable

Adaptable to all types of skylights thanks to the wide variety of brackets that enable this shade to be placed in different ceiling openings and many window models.

Compatible with the following manufacturers:

VELUX, ROTO, FAKRO, ROOFLITE, MEETH, KEYLITE, FS-STUDIO, DÖRKEN, DELTA, BRAAS, BLEFA, BEIJER.

By simply providing the name of the manufacturer, the reference number and the window model on the order, measuring can be avoided.

Profile colors

White

Anodized
aluminum

Fabric diversity

Variety of colors and technical fabric finishings for the roll-up system.

Blackout fabrics

Our fabrics collection includes a wide range of smooth and patterned concealing fabrics with multiple textures and colors and provides an almost total opacity to the room.

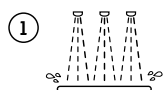

Air purifying shades

As a result of Bandalux' ongoing technological innovation and its commitment to sustainability, it has launched a new shade able to purify the air in any room.

Application of a nanocoating on the technical fabric

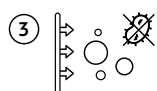

The shade is treated as follows:

A mixture of oxide minerals is applied to the shade's fabric.

This mixture is naturally activated by sunlight or artificial lighting.

When it is activated, any contaminant particles in the air are removed (viruses, bacteria, fungi, contamination, and volatile organic compounds).
