| Operating systems | Handle |
| Installation | Adhesive on the frame (front installation) |
| Options | NIGHT & DAY Models |

Total functionalism

Two types of fabrics. Two solutions

PLEATED FABRIC:
20mm pleat

Available in many different
colors, textures and
transparencies.

CELL FABRIC:
25mm pleat

- Inner beehive-like cell.
- 100% darkness.
- Thermal insulation.

Profile colors

| | |
|---|---|
|  White RAL 9016 |  Brown RAL 8019 |
|  Ivory RAL 9001 |  Metallic Grey DB 703 |
|  Grey RAL 9006 | |

Night & Day option

Combination of two fabrics
in a single shade for either
transparency or privacy at
any time of the day.

Semi-blackout option

The FIT shade can provide almost
total opacity thanks to the Blackout
fabrics range with its different colors
and textures, and to the lateral
guiding system.

Fit-pleat

A1 CHANNEL

A pleated fabric system with the option of combining two fabrics. Adaptable to windows and glass doors (flat surfaces).

Ultra-resistant adhesive tape without surface damaging

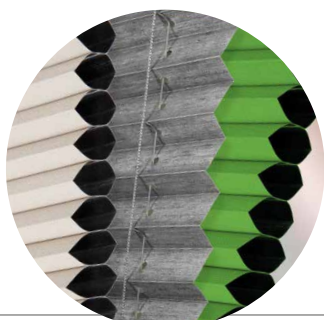

Perfect adhesion to the frame for windows and glass doors:

- Fits perfectly into the structure.
- No drilling. No holes.
- Ultra resistant 3M adhesive tape.

Wide range of fabrics

Wide range of fabrics with different textures, colors and degrees of transparency.

INSTALLATION
ALLOWED

CHECKING THE MEASUREMENTS: (Images intended to serve as examples only)

1 Minimum height 15 mm

The height must be at **least 15 mm** in the upper section, as measured from the molding upward (flat surface).

2 Minimum depth 20 mm

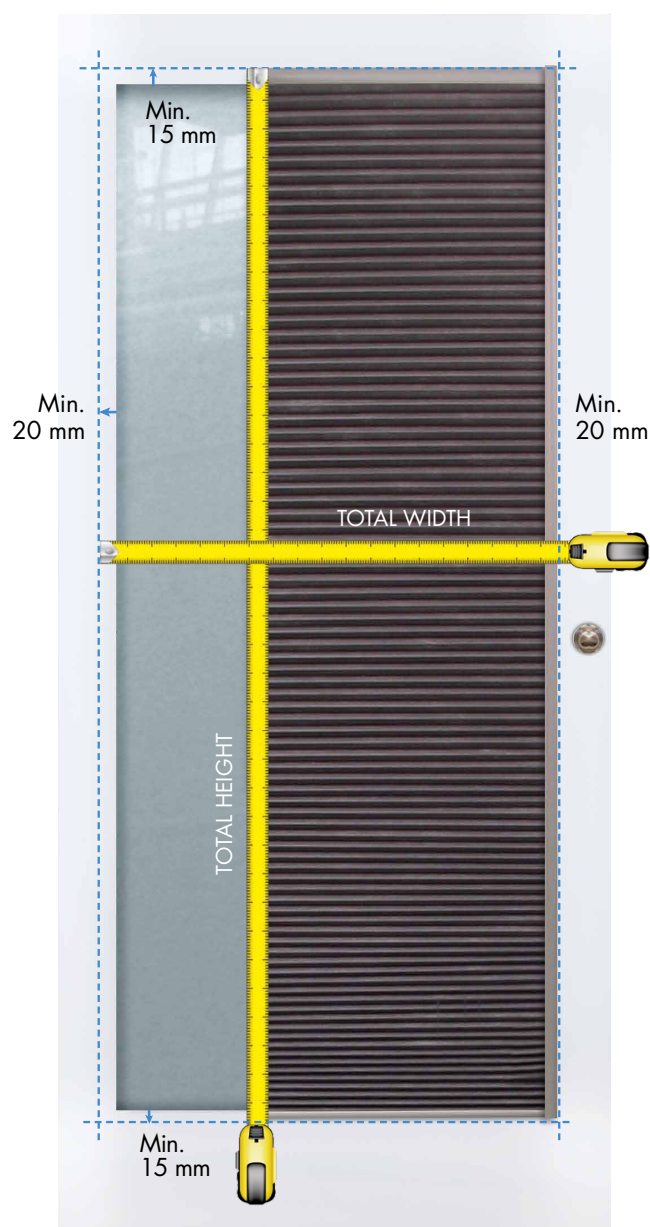

Minimum **space of 20 mm** between the doorknob and the start of the inner molding.

Not suitable for doors with handles similar to the one shown in the photograph.

TAKING THE RIGHT MEASUREMENTS:

! The Fit-Pleat system can only be installed on flat surfaces, glass doors or windows with straight sides without moldings or latches.

ORDER:

Bandalux will supply the shades with the measurements provided by the customer.
