

# WOOD BLINDS

The nobility of real wood becomes pure elegance in this Wood blind. Subtle lines convert light into warmth with a great natural finish.

## AVAILABLE COMPONENT COLORS

The rail, brackets, ladder tape and chain, will be color-coordinated to the slats according to Bandalux criteria. If another color is desired, indicate it on the order form or eBa.

## New collection

The range of wooden venetian blinds is growing by incorporating **new colors and wood finishes from abachi**, chosen in line with new trends in interior design and decoration.

The new collection combines slats in serene and elegant tones (Khaki, Salvia, Sky and Tortora), natural wood finishes (Wood, Cedar, Light oak and Tan) and two new vintage-style textures (Cream and Ebony).

With these new products, the collection improves its quality, as it expands the number of abachi wood references with FSC®- C180213 certification, in addition to the venetian blinds available in basswood.

## FSC® certified Woods

As part of our **commitment to the environment**, at Bandalux we use FSC®-certified wood in most of our products, which comes from responsibly and sustainably managed forests.

## 2" slats

The **Genuine system** is characterized by its **refined design** that furnishes the blind with a sophisticated and elegant look.

The warmth of wood enables to create a cozy and elegant environment.

## Ladder tape

The **tape** enhances the finishing and allows the different fabric tones to combine with the slat.

## Convenient operating system

The driving mechanism permits orientation changes of the blind slats allowing visibility variation towards outside while enabling sunlight adjustments towards inside.

**Chain and motor** operated for greater convenience.

## Safety protection for children

In compliance with the updated child safety standard (ANSI/WCMA A100.1-2022), Bandalux supplies an improved Chain/Cord Tension Device by default.

This device is designed to eliminate free hanging cords and connectors in order to be fully tensioned and fixed to the wall with the aim of preventing children from getting entangled in it.

### **Features of the new Child Safety Device:**

- Easy device assembly.
- Quick installation.
- Smooth and reliable performance.

## Extendible reinforced Trazer brackets

New brackets developed by Bandalux for **wall installation**.  
Design adapted to the latest trends.

## TECHNICAL DATA

### MINIMUM AND MAXIMUM SIZES

Operating system	Blind width		Blind height		Surface		Tolerance
	Maximum	Minimum	Maximum	Minimum	Maximum	Minimum	% (Width / Height)
CHAIN	118"	23 <sup>5</sup> / <sub>8</sub> "	98"	11 <sup>13</sup> / <sub>16</sub> "	5,14yd	0,36yd	±0,5% / ±0,5%
MOTOR	118"	27 <sup>9</sup> / <sub>16</sub> "	138"	11 <sup>13</sup> / <sub>16</sub> "	9,57yd	0,36yd	±0,5% / ±0,5%

❗ For 2,98yd or larger surfaces we recommend its motorization or adding a crank-operated system, or either divide into two individual units with manual operating system due to the resistance that this blinds exerts for its elevation.

### NUMBER OF BRACKETS AND TAPE LADDERS ACCORDING TO BLIND WIDTH

#### BRACKETS

Blind width	N° of lateral brackets	N° of central brackets
23 <sup>5</sup> / <sub>8</sub> " - 47 <sup>1</sup> / <sub>4</sub> "	2	0
47 <sup>5</sup> / <sub>8</sub> " - 70 <sup>7</sup> / <sub>8</sub> "	2	1
71 <sup>1</sup> / <sub>4</sub> " - 118"	2	2

#### TAPE LADDERS

Blind width	N° of tape ladders
Up to 45 <sup>1</sup> / <sub>4</sub> "	2
45 <sup>1</sup> / <sub>4</sub> " to 55 <sup>1</sup> / <sub>8</sub> "	3
55 <sup>1</sup> / <sub>8</sub> " to 74 <sup>13</sup> / <sub>16</sub> "	3
74 <sup>13</sup> / <sub>16</sub> " to 118"	5

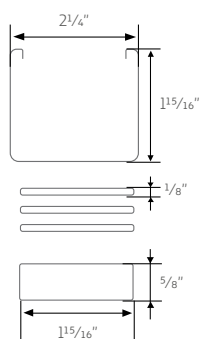

- ❗ 1. Bandalux will always serve the number of brackets and tape ladders as indicated in these tables. To request a different number you must indicate on the order form or eBa.  
2. Bandalux supplies brackets for wall/ceiling installation by default. If other brackets are desired, indicate on the order form or eBa.
