SLIDING PANEL RANGE

PRODUCT PRESENTATION

A wide selection of traditional and technical fabrics

Sliding tracks are available with MOVES new fabrics as well as with Bandalux general catalog fabrics.

Matches any style

Sliding tracks allow to combine fabrics with different colors, prints, textures, etc. A solar protection system with a high decorative power.

Small and large surfaces

Sliding tracks can be installed in both small and large spaces. Tracks can have 2, 3, 4 or even 5 channels.

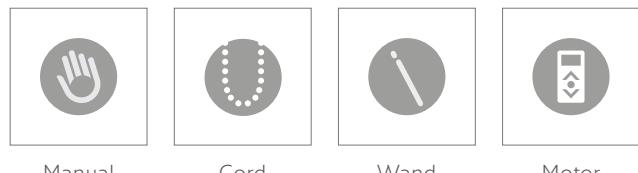

Soft and precise movement

Sliding tracks slide easily and effortlessly thanks to the roller sliding system, offering an optimal user experience.

Four operation systems

You can choose between different operation systems to open and close the panel: manual, cord, wand or motor operation.

SLIDING PANEL RANGE

PRODUCT PRESENTATION

Zenit motorized track

This track allows a silent remote controlled motorization.

Trazer® decorative cover

A modern and minimalist decorative cover to add a touch of class and sophistication to classic shades. Available in white textured matte and anodized aluminum finishes.

Safety protection for children

In compliance with the updated child safety standard (ANSI/WCMA A100.1-2022), Bandalux supplies an improved Chain/Cord Tension Device by default.

This device is designed to eliminate free hanging cords and connectors in order to be fully tensioned and fixed to the wall with the aim of preventing children from getting entangled in it.

Features of the new Child Safety Device:

- Easy device assembly.
- Quick installation.
- Smooth and reliable performance.
